SAYS BOLSHEVISM IS INCREASING IN GERMANY

PARIS, March 24.—Oswald Garrison Villard, of New York, editor of Nation, has just returned from Paris with week's observation of conditions in Germany and made a report to the American peace commissioners at the British prime minister, David Lloyd George, by which they are said to have been profoundly impressed. "The drift toward Bolshevism is rapid in Germany," said Mr. Villard today, "and it can be checked only by prompt food relief and the lifting of the blockade so that trade may begin again and the idle German factories may receive raw materials as fast as arrangements can be made to pay for them."

DOCTOR URGED AN OPERATION

Instead I took Lydia E. Pinkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Pinkham's Vegetable Compound before consenting to an operation. I took five bottles of it and it has completely cured me and my work is a pleasure. I tell all my friends who have any trouble of this kind what Lydia E. Pinkham's Vegetable Compound has done for me." NELLIE E. BUNTINGHAM, 609 Calverton Rd., Baltimore, Md.

It is only natural for any woman to dread the thought of an operation, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

RESUME REVEALS 65TH CONGRESS AS RECORD-BREAKER

Publishing of Monthly Compendium of House Gives Interesting Details of Precedents Wiped Away.

WASHINGTON, March 24.—Accomplishments of the Sixty-Fifth war congress are officially reviewed in the final number of the Monthly Compendium of the house of representatives. Unfinished business of the congress, which must be considered in the legislative program of the new congress soon to convene, also is contained in the publication, which was edited by W. Ray Loomis, an official of the house.

"Constituting as it does a statistical retrospection of the accomplishments of the 65th congress," says Mr. Loomis, in a foreword of the compendium, "the final issue of the Monthly Compendium throws the searchlight on the transactions of three sessions of unusual-acted events. When the congress met in April, 1917, the country was at peace. In the interim a war had been declared, a war had been won, and a war had been ended. So this issue carries legislative history of a character that perhaps never again will be duplicated, both as to the amount of money authorized to be expended and as to the extent of the revolutionizing of the social and business lives of the people of the nation."

The 65th congress is shown to have appropriated approximately \$27,000,000; passed 245 public laws; 48 public resolutions; 48 private laws; and conducted 25 congressional investigations. A total of 22,594 bills and resolutions were introduced, of which 16,684 originated in the house and the remainder in the senate. President Wilson vetoed five measures.

Wilson's Action.

President Wilson's part in congressional matters is set out by a list of notable dates, including his approval of history-making laws and his numerous addresses. It is shown that for the first time laws were signed in a foreign country; that for the first time a measure—a revenue bill—was signed on a railroad train; that for the first time a president had addressed the senate in favor of woman suffrage; had signed a bill to "move the sun forward and then backward," and had gone in the foot of the house to shake hands with members of foreign war missions.

Another unprecedented feature of the congress pointed out by the compendium was that practically one-fourth of all laws of the three sessions were approved during the last nine days of the congress. The president signed 116 bills and resolutions from Feb. 24 to March 4.

Fifteen representatives, ten senators and 25 ex-members died during the congress. Two former presiding officers of the senate, Theodore Roosevelt and Charles W. Fairbanks, also are included in the death roll. A list of authors of bills receiving action beyond mere introduction shows a predominance of names of chairmen of committees. Senator Chamberlain, of Oregon, chairman of the military committee, with 18 measures, led the list, with Senator Myers, of Montana, chairman of the public lands committee second with 15 bills. Representative Padgett, of Tennessee, heading the naval committee, led in the house with 34 measures, and Representative Dent, of Alabama, chairman of the military committee, was second with 35 bills.
